

Merck's medical research and development facility in Bengaluru has been inaugurated. The Merck India R&D Excellence Centre helps treat patients with unmet medical needs all over the world by contributing to the company's [healthcare R&D](#). About 300 employees are employed in the German pharmaceutical company's centre, which will keep growing over the next two years. "Through the Centre, we will strengthen our presence in healthcare R&D in India, while supporting Merck Group's global efforts in drug discovery. The Centre in Bangalore aims to establish a one-team culture, delivering critical responsibilities in the drug development journey as well as develop a valuable talent pool," Suneela Thatte, VP and head of R&D Excellence Centre.
