

Shree Pushkar Chemicals & Fertilisers Limited stated that entire commercial production would begin at their new plant UNIT 5 in D-10, MIDC Lote Parshuram, Ratnagiri, Maharashtra. According to a top official, “We are pleased to announce that after all the necessary approvals, dry trail runs, trail runs, quality parameter set up and man power arrangements, Unit 5 at D-10, MIDC Lote Parshuram, District Ratnagiri, Maharashtra has started its commercial production entirely from July 4, 2023 for all the products and its plants.” The new facility has production capacity of 66000 MTPA for Sulphur Chemistry and its derivatives and 7200 MTPA for Dyes intermediates. This facility is completely integrated facility. Unit 5 shall augment Company’s Dyes and Dyes intermediates supply. The new plant will be an important base for expanding global as well as domestic sales in the future.
