

NTPC Renewable Energy Limited's 1.255 GW Solar PV Project in Khavda RE Park, Gujarat, will receive Nexttracker's award-winning solar trackers as part of an agreement signed with Sterling and Wilson Renewable Energy Limited, one of the world's top providers of intelligent solar tracker and software solutions.

Sterling and Wilson Renewable Energy Limited is a leading provider of RE EPC and O&M solutions.

Sterling and Wilson Renewable Energy Limited is implementing this 1.568 GWp Solar PV project in NTPC REL's Khavda RE Park, Gujarat, using Nexttracker's optimized bifacial solar tracker for additional energy gain.

Amit Jain, Global CEO of Sterling and Wilson Renewable Energy Group said, "Nexttracker has been a great partner for us in India and in the global markets we serve, and we are glad to associate with them for this project. Together, we aim to deliver a landmark project and contribute to India's renewable energy targets". "At Sterling and Wilson Renewable Energy, we always aim to deliver spectacular, high-quality, cost-efficient and timely solar energy solutions, and achieve utmost customer satisfaction", he added.
