

Oil India Ltd, the country's second-largest state-owned oil exploration, said in a statement that it is constructing a plant to produce green hydrogen at its Jorhat oilfield in Assam.

"To strengthen its bouquet of clean energy offerings," the firm added, "it has taken steps to establish a 100 kW green hydrogen plant at its Pump station-3 in Jorhat."

Speaking on the occasion of the 'bhumi puja' ceremony of the project, Pankaj Kumar Goswami, Director (Operations) said the hydrogen generated will be blended with natural gas using the existing infrastructure.
