

Electric vehicle maker Omega Seiki Mobility on Tuesday announced the opening of a manufacturing facility at Faridabad (Haryana) at an investment of Rs 75 crore.

The new integrated facility, which is the company's third plant at its headquarters city and the fourth in all, will have a capacity to produce 15,000 electric three wheelers annually, the company said in a statement.

The plans are to scale up the production to 50,000 units in the next three years by investing another Rs 150 crore.

The new plant will be manufacturing the entire range of OSM's cargo electric three-wheeler Rage+ as well as passenger e-three wheeler, Stream, the company said.

Recently, the company inaugurated a similar facility in Pune (Maharashtra).

"The launch of our third facility in Faridabad marks another important landmark for Omega Seiki Mobility. We have an order book of 50,000 plus cargo electric three wheelers and this facility has been set up to meet the growing market demand," said Uday Narang, Founder and Chairman of Omega Seiki Mobility.
