

The government-run ONGC said that it has signed an MoU with Greenko ZeroC (Greenko) to pursue prospects in renewable energy, green hydrogen, green ammonia, and other derivatives of green hydrogen together.

Anurag Sharma, Director (onshore) of ONGC, and Anil Kumar Chalamalasetty, CEO and Managing Director of Greenko, signed the two-year MoU in New Delhi in the presence of HS Puri, Minister for Petroleum and Natural Gas.

“This MoU is in line with the National Hydrogen Mission, launched by the Prime Minister, in making India a global green hydrogen hub. The activities envisaged under this MoU will contribute towards India’s target of producing 5 million tonnes of green hydrogen per annum by 2030,” ONGC said in a statement.
