

At India's only integrated plant of primary and secondary plasticisers manufacturing facility in Dahej, Gujarat, Payal Group officially opened a 35 kilo tonnes per annum (KTA) expansion for chlorinated paraffins production. After the completion of this project, its capacity to produce chlorinated paraffins has increased to 70 KTA, placing it among the top three producers in India. The project is intended to benefit the region's growing downstream PVC industry and boost exports of secondary plasticisers.
