

[Puja Arti Ply Products](#) is a company that is planning to set up a new plywood manufacturing unit in Chaksurat, Fatuha, Patna, Bihar. The proposed project aims to establish a manufacturing unit with a production capacity of 10775 Metric Tons per year. The project is expected to bring employment opportunities to the local community and contribute to the economic development of the region. As of March 2023, the company has received consent from the state pollution control authorities to establish the project, which indicates that the project meets the necessary environmental regulations and standards. The company is likely to proceed with the project and begin construction soon.
