

Phase one of the production of calcium zinc stabilisers, calcium organics, modified processing aids, and other specialty aids is about to begin, according to RA Chemicals Pvt Ltd. The expected capacity for these items is around 45,000 MTPA.

All products will be sold under the STABICON brand and produced in Ahmedabad by its subsidiary Foxcon Elements Pvt Ltd. The business also plans to name distributors to promote similar items on other continents. In addition to Ahmedabad, the company now maintains offices in Nairobi, Kenya, and Vadodara, India.

By 2025, the company wants to use its primary distribution business to supply cutting-edge, high performance products for plastics, rubber, engineering plastics, cosmetics, paints and coatings, printing inks, flavour and fragrances, and lubricants.
