

Rays Experts said that it will build the world's largest solar park in Rajasthan, with a capacity of 3000 MWp.

The solar park would cover 9000 acres in Bikaner, Rajasthan.

According to a corporate statement, it has signed all relevant transmission agreements and received all necessary permits.

It asserted that this is the country's first and only privately owned ultra mega solar park linked to the central transmission grid.

All of the previous large solar parks were partially or entirely controlled by the government.

The firm claims to be India's largest solar park developer.

This solar park will offer ready-to-go [infrastructure](#) for numerous solar developers, saving them money and time because land, transmission lines, and other equipment are already in place.
