

[SAC Engine Components](#), a renowned engine component manufacturing company in India, has proposed a semi-machined product manufacturing expansion project in Gummidipoondi, Tiruvallur, Tamil Nadu. The project aims to meet the growing demand for high-quality engine components in India and overseas. The company plans to produce 1,500,000 semi-machined valve tappets and 100,000 semi-machined camshafts per month through this project. Gummidipoondi, Tiruvallur, Tamil Nadu, has been chosen as the location for this expansion project due to its strategic location, availability of skilled labor, and favorable infrastructure. The company has received the necessary consent from the state pollution control authorities as of March 2023 to establish the project, reflecting its commitment to environmental sustainability.
