

Sandhar Technologies Limited, India's leading automotive component manufacturer, has opened Phase 1 of its manufacturing facility in Halol, Gujarat, and will begin commercial production of sheet metal and fabrication components/parts on May 02, 2022, through its wholly owned subsidiary Sandhar Engineering Private Limited.

According to a regulatory filing, the establishment of this production plant would improve the company's footprint in Western India.

Sandhar Technologies Limited endeavours to safeguard and serve its customers and suppliers' best interests. Sandhar Technologies Limited will continue to create cost-effective components/parts as part of its commitment to customers and recognition of their faith and confidence in the company's production capabilities.
