

A tender to construct 2000 MW of solar projects in India has been made public by the Solar Energy Corp. of India (SECI).

The projects will be built on a build-own-operate basis and connected to the motorway network.

The winning bidders and SECI will sign a 25-year power purchase agreement, and the purchased power will be sold to several Indian buying bodies.

New solar projects that have not yet been put into operation or accepted under any federal or state programmes are eligible for the tender.

Developers can submit a single bid for any quantity between 50 MW to the entire tendered capacity of 2000 MW, in multiples of 10 MW only.
