

Serentica Renewables, a subsidiary of Twinstar Overseas (TSOL) said it plans to install around 1.5 GW of hybrid solar and wind power across Karnataka, Rajasthan and Maharashtra. Nearly 600 MW of RTC clean energy will be delivered to various Vedanta Group enterprises using a sizable portion of this capacity. In 24 months, the capacity will be put into service, pending statutory permissions.

The company will concentrate on offering huge energy consumers in India round-the-clock (RTC) carbon-free power. According to a statement from the company, it will focus on offering consumers complete green solutions, including connectivity to the necessary transmission network.
