

[Shanti Greens Bio Fuels](#), an Indian renewable energy company, is planning to establish a new grain-based distillery unit in Village-Sarda, Taluka Berla, District Bemetara, Chhattisgarh. The proposed project involves setting up a state-of-the-art grain-based ethanol distillery plant with a capacity of 400 KLPD (kilolitres per day), along with a 10 MW power generation unit. The project is estimated to cost Rs. 4173.4 million. Shanti Greens Bio Fuels has a strong focus on sustainable and eco-friendly fuel solutions, and the establishment of the proposed distillery unit aligns with its vision to promote renewable energy usage and reduce dependence on fossil fuels. As of February 2023, the company is in the process of obtaining environment clearance for the project, which is expected to move forward with construction and production in the near future.
