

For a new construction specialty chemical facility (multi-purpose plant), [Shiva Engineering Services](#) (SES) has awarded EPCM contracts.

SES will establish a hydrogenation facility, chlorination and nitration operations, among other things, as part of the arrangement.

Around 235 crore worth of investment is anticipated overall. Site master planning, basic and detailed engineering services, procurement and sourcing assistance, construction and safety management, inspection and expediting, site monitoring, commissioning and start-up assistance are all included in the Shiva Engineering Services project scope of work.
