

An EPCM services contract has been given to [Shiva Engineering Services \(SES\)](#) for the upcoming specialty chemical factory in Dahej.

As part of the agreement, Shiva Engineering Services will offer one of the top suppliers of specialty chemicals services like site master planning, basic and detailed engineering, procurement support, and construction management.

Chemical and petrochemical industries are investing heavily in the Dahej-Sakhakh region, which is emerging as a desirable location for investments. Over three hundred greenfield projects have been completed by the SES Engineering Services team in the specialty chemical, fragrance, paints, agrochemical, and adjacent industry areas worldwide.

“With increase in capital expenditure investments in speciality segment this market is likely to grow very rapidly in near future. Demand for high level of automation in plant operations is on the rise and clients are very keen to adopt Industry 4.0 technologies in their plant operations,” informs a senior official in the Business Unit of Shiva Engineering.
