

Snowman Logistics completes construction of temp-controlled warehouses in Coimbatore and Pune | 1

Snowman Logistics finished the construction of a temperature-controlled warehouse in Coimbatore in February 2022, and the facility is fully operating.

The facility has a total capacity of 4020 pallets. It is a multi-temperature facility with 8 chambers, 6 loading bays, and accompanying infrastructure that includes G+5 racking system, sophisticated handling equipment, and enough chilled truck parking space.

Quick service restaurants, poultry, ready-to-eat food, ice cream, dairy goods, confectionery & pastry items, seafood, fruits & vegetables, pharma, and other products will be stored, handled, and transported at the facility.

Snowman also opens its SnowServe facility in Pune, which will serve as an Amazon India fulfilment centre.

Amazon will be using this facility for the delivery of FMCG perishables including vegetables, fruits, eggs, frozen food, and groceries in the city.

The facility is spread across 12,000 sqft area and has sorting, grading, packing and labeling process lines.
