

Surana Solar's board of directors has authorised a proposal to build a 200 MW cell and module line using 210 mm monopark cells and modules for a total investment of Rs 200 crore, for which the business is looking into various funding options.

The company's board of directors has also accepted a plan to invest Rs 4.00 crore, or 5% of total equity, whichever is less, in a company that specialises in semi conductor testing and packing, for which discussions are now underway.

The company's Board of Directors approved the same during their meeting on January 13, 2022.
