

Suzlon Group announced that it has been chosen to build a 50.4 MW wind power project for Sembcorp's renewables subsidiary Green Infra Wind Energy Ltd.

Suzlon will install 24 wind turbine generators (WTGs) with a Hybrid Lattice Tubular (HLT) tower and a rated capacity of 2.1 MW each as part of the order, according to a statement from the Suzlon Group.

According to the statement, the project will be completed in Karnataka and put into service in 2024.

Suzlon will carry out the project, including erection and commissioning, and deliver the wind turbines (equipment supply). Additionally, it will offer complete post-commissioning operation and maintenance services.
