

Tata Power Solar Systems Limited (Tata Power Solar), a wholly-owned subsidiary of The Tata Power Company Limited (Tata Power), has completed a 66MW EPC (Engineering, Procurement, and Construction) project for Vibrant Energy.

The project will generate 110,029 energy units per year. Carbon emissions would be reduced by up to 9 lakh tonnes as a result of the installation. The project, which covers 191 acres and includes 1,27,268 solar modules, was finished in a record-breaking nine months.

Tata Power Solar and Vibrant Energy share the goal of being the country's leader in innovation-driven renewable energy solutions.
