

The inauguration of three Centres of Excellence put up by Tamil Nadu Industrial Development Corporation at TIDEL Park in Taramani next month is likely to transform the industrial environment in Tamil Nadu.

The three CoEs - Dassault Systems' Tamil Nadu Centre of Excellence for Advanced Manufacturing (TANCAM), Siemens' Tamil Nadu Smart and Advanced Manufacturing (TANSAM), and GE Aviation's Tamil Nadu Advanced Manufacturing Centre of Excellence (TAMCOE) - will help Tamil Nadu industries equip themselves with cutting-edge global technology tools and efficient and innovative manufacturing practises.

The services provided by these centres include expert consultancy services for creative problem solving and advanced upskilling, reskilling and skill training for individuals in emerging sectors such as rapid design, analysis, simulation software and additive manufacturing.
