

TÜV SÜD, a testing and certification business, has set the groundwork for a new facility in Bengaluru to test and certify electrical and electronic items as well as medical equipment. Early in 2023, this new integrated office and lab facility will be completed. The facility, which will be built at a cost of €15 million and will span 3 acres and 70,000 square feet in Phase 1, will be located in KIADB Hitech Defense and Aerospace Park, Devanahalli, and will be Bengaluru's second lab facility, following the Food Health and Beauty laboratory in Peenya Industrial Estate.
