

Valiant Organics, a business that specialises in the production and marketing of specialty chemicals used in a variety of industries, including agrochemicals, pharmaceuticals, dyes, pigments, and veterinary medications, is scheduled to start producing [Ortho Amino Phenol \(OAP\)](#) and Pharma Intermediates in Q2 FY23.

Ortho Amino Phenol (OAP) phase 1 production will begin in the second quarter of FY23. A portion of the production will be used to do forward integration for one of the company's current products. A total of 15 crore has been invested by the firm on capex for OAP. The company just completed a fruitful trial run. Pharmaceutical intermediate manufacture is scheduled to begin in Q2 of FY23.

This facility serves a variety of functions for forward integration within the Group firm and produces API raw materials N-1 and N-2. The company has spent a total of ₹60 crore on capex.
